

MOSEHART-SCHLEETER Co. INC

Micro Fibers 24/7®

A performance fabric that works 24 hours a day, 7 days a week and doesn't sacrifice beauty or softness... Sound impossible? It's not, it's 24/7® Fabric. Impervious to kids, pets and spills, this innovative fabric has built-in protection. Because the protection is built into our fabric and not applied as a topical spray, 24/7® Fabric never loses its effectiveness. This ensures it can withstand numerous washings and years of wear and tear. Here are 7 ways you can count on its performance 24 hours a day:

1. **Repels Liquids.** Water, soda, red wine, even oil can't penetrate this fabric and simply bead up. When tested in a laboratory, liquids remained beaded on fabric for more than 24 hours.
2. **Safeguards Against Bacteria.** 24/7® Fabric is anti-microbial and therefore resists mildews, molds, viruses and other bacteria. And it continues to guard against germs and remains hygienic even after 50 washings.
3. **Resists Odors.** The anti-microbial properties of this fabric ensure its resistance to odors. This helps it maintain its clean scent while looking clean as well.
4. **Is Tough on Stains.** Ketchup, coffee, tea, milk, soda and even suntan lotion are no match for the stain resistance of 24/7® Fabric. Even stains that set over 24 hours can be easily cleaned up from this resilient fabric.
5. **Is Durable.** Spills, accidents, and daily wear are no match for this performance fabric. It endures it all—and looks good all the while.
6. **Is Unbelievably Soft.** 24/7® Fabric is so soft and supple, it's hard to believe it's tough on messes and extraordinarily stain resistant. Its beauty and softness are matched only by its performance.
7. **Is Easy to Care For.** Great looking upholstery has never been easier to maintain. 24/7® Fabric is easy to care for, and can be cleaned with just soap and water.
